

AMENDMENTS TO THE SPECIFICATION

Replacement paragraph 0038 with markups is herein provided:

[0038] Now referring to Figure 6, when the end-of-game evaluation means 24 receives a card and a draw (step 90), it compares them in regard to an end-of-game criterion (step 92). If the comparison corresponds to an end-of-game criterion, the end-of-game evaluation means 24 orders, at step 94, the draw section 30 to prevent any new use of said draw and to generate a new draw for the corresponding gem-game title, thus initiating a new game of said game.
